## Summary

---

Cloud Certified Developer specializing in GenAI solutions across multi-cloud environments. Bridges technical expertise with stakeholder collaboration to transform business challenges into resilient, user-focused applications that deliver measurable productivity gains.

## Skills

---

**Programming Languages:** C#, Python, JavaScript, C++

**Frameworks & Libraries:** .NET Blazor, TailwindCSS, Blazor FluentUI, MudBlazor, React.js

**Cloud & AI:** Azure OpenAI, Semantic Kernel, Azure AI Search, AWS Bedrock, CosmosDB

**Tools:** Git, Agile - Jira, Github CI/CD, Docker

## Experience

---

**Insight Enterprises** – Gen AI Developer Apr 2023 – Present

- **Project:** InsightGPT - Internal knowledge access tool serving 12,000+ employees
- Reduced Teams question handling time by 70% through automated processing system, measurably improving support team throughput.
- Engineered SharePoint content indexing pipelines for Azure AI Search, enabling precise document retrieval across company resources.
- Designed and implemented administrative interface with Blazor and Fluent UI, incorporating user feedback to optimize workflow controls.
- Developed context-specific prompt templates that improved response relevance by 40% and reduced format inconsistencies.
- Tech: C#, .NET 8 Blazor, Fluent UI, Semantic Kernel, Azure OpenAI.

**Hanu Softwares (acquired by Insight)** – Cloud Engineer Jul 2023 – Mar 2024

- **Team:** Internal Product Development | Tech: Azure, AWS, Docker, Dapr, Node.js, React
- **Trained** in cloud-native technologies while contributing to multi-cloud deployment strategy product and achieving multiple cloud certifications

**High Radius** – Consultant Intern Aug 2022 – Oct 2022

- **Team:** Tech Consulting | Tech: Jira, Agile, EIPP
- Managing EIPP configurations as per requirements, feedback resolution

**High Radius** – Full Stack Intern Jan 2022 – Mar 2022

- **Team:** Winter Intern | Tech: React, Java, Python, Scikit-learn
- **Developed** B2B Invoice Management application and implemented RandomForest model for payment delay prediction.

## Certifications

---

**Microsoft Azure:** AZ-204 (Developer Associate) | AZ-900 (Azure Fundamentals) | DP-900 (Data Fundamentals) AI-900 (AI Fundamentals)

**AWS:** CLF-C02 (Cloud Practitioner)

**GCP:** Associate Cloud Engineer

## Education

---

**KIIT University** – B. Tech in Information Technology, 8.75gpa

2018-22
